Dorian Stoll

For example,

If you press the **U** key then the **4** key on your keyboard, this will display the **Extending Rectangle** tool with configuration numbers **TC4**.

If you press the **S** key then the **3** key on your keyboard, this will display the **Horizontal Line** tool with configuration numbers **TC3**.

If you press the **Z** key then the **1** key on your keyboard, this will display the **Rectangle** tool with configuration numbers **TC1**.
